

PATHOLOGICAL SOCIETY OF GREAT BRITAIN AND IRELAND

Educational meeting – November 17th 2010

Molecular pathology & colorectal neoplasia - what a diagnostic pathologist should know and do

Venue – Royal College of Pathologists

Programme

Prepare for the future! In our new educational initiative, each speaker will provide an update on molecular pathological advances, relating the science to diagnostic cellular pathology and clinical medicine. Presentations will cover both current molecular pathology techniques and translational research likely to enter clinical practice soon.
